

SETUP LOCATIONS

LOCATIONS: This module allows you to separate your reports in the **INVENTORY**, **SALES**, **ACCOUNTING** and **PARTS & SERVICE** by a **LOCATION** field. This is helpful when separating **INVENTORY REPORTS** by physical locations or types of inventory such as trades, consignments, etc.

LIST LOCATION: This menu selection lists the current **LOCATIONS**.

```

Acm Demo
USE THIS SETUP TO CONTROL GROUPS OF ITEMS AND OR GL ACCOUNT CONTROL CODES
(GREAT IF YOU HAVE MULTIPAL LOCATIONS AND OR NEW CAR DEALER FRANCHISE!)

```

ADD LOCATION: This menu selection allows you to add additional **LOCATIONS**. To modify or to specifically assign the modules where the **LOCATION** you are adding is to be made available do so by entering (Y) or (N) next to each module. If you are unsure enter a (Y) by each module to make the **LOCATION** available in all modules.
